

ELITE

SX-A6-J

STEREO RECEIVER FOR CRITICAL LISTENING

POWER

- › 60W per channel x 2

PERFORMANCE FEATURES

- › Symmetrical, Dual Mono Amplifier and Power Supply Construction
- › **Mechanically Isolated Power Supply** for Fast Response and Low Noise
- › **Adoption of a Schottky barrier diode**, a majority carrier device. This gives it tremendous advantages in terms of speed. The Schottky diode also has a much higher current density than an ordinary diode making the diode ideal for use in power supply applications
- › **Class A/B Amplifier Stages Featuring LAPT Output Transistors.** LAPT output transistors are high-speed output transistors that operate over an extremely broad frequency range and produce minimal distortion even when handling large amounts of current
- › Air Studios Audio Tuning
- › Honeycomb Chassis Construction
- › Curved Profile Brushed Aluminum Front Fascia

FORMATS

- › XM® Satellite Radio Ready*
- › MM Phono Input
- › AM/FM Tuner

*XM Connect-and-Play antenna and subscription service (each sold separately) required to receive XM and XM-HD Surround Radio.
